ICT Support & Network Specialist helping organizations maintain stable ICT infrastructure, resolve technical incidents and improve operational continuity through network support, systems administration and user enablement.

Executive Summary

Early career ICT professional with practical experience supporting enterprise ICT environments, maintaining network infrastructure, resolving end user technical issues and executing system upgrades across multi-department institutional settings. Hands-on exposure supporting 80+ users across government offices, including executive departments, with proven contribution to reducing downtime and improving workflow continuity. Cisco-trained in networking, cybersecurity and hardware systems, with additional capability in web development and ICT training.

Selected Achievements

- Supported 80+ institutional users across county government departments
- Reduced ICT downtime across executive offices through incident resolution
- Led Windows migration from Windows 7 to Windows 11 Pro across multiple departments
- Resolved 50+ live technical incidents during ICT training delivery
- Achieved 100% trainee completion rate during teacher ICT training
- Coordinated the installation of Kaspersky antivirus software on computers across the departments.

Professional Experience

ICT INTERN

County Government of Kisumu | Directorate of ICT

April 2025 - July 2025

- Supported ICT operations across 80+ users in multiple county departments including the Deputy Governor's office, CECM offices, directors' offices, and secretariat units
- Resolved network, hardware, and software incidents affecting operational workflow across executive offices and administrative departments
- Contributed to maintenance of central network servers and departmental server environments supporting institutional connectivity

- Reduced downtime by diagnosing and resolving network disruptions and end-user technical failures across multiple departments
- Led major system upgrades by supporting migration of legacy computers from Windows 7 to Windows 11 Pro across county offices
- Installed and configured Microsoft Office packages and productivity tools for departmental users
- Supported help desk operations, server room administration, technical reporting, and webmaster administration activities
- Performed system diagnosis, device maintenance, and infrastructure troubleshooting across varying device environments

IT Trainer

St. Rita Ramula Girls Secondary School

April 2024 – August 2024

- Trained 15+ teachers in ICT fundamentals, improving technology integration in classroom delivery
- Resolved 50+ technical issues during training sessions, ensuring uninterrupted learning delivery
- Developed tailored training materials that improved lesson effectiveness and trainee satisfaction
- Reduced reliance on external technical support by strengthening internal digital literacy among staff
- Recommended practical ICT infrastructure improvements that enhanced system reliability
